We are delighted to present this full listing of David Austin Roses to you. For those who are unfamiliar with these new classes of roses, we list some interesting aspects below.

Please refer to the "**Handbook of Roses**" for detailed information.

Highlights:

Alba Rose - Old varieties (popular in the Middle Ages), hardiest of all roses, disease-free, low maintenance, grows well in part shade, and blooms in early summer.

Bourbon & Hybrid Perpetual Roses - Crossed between Old Roses & Modern Day Roses, varieties grow 4-5 ft. tall and continuously bloom in the summer

Centifolia Rose - "Provence Rose" - forms an open shrub (3-6 ft), stems have many thorns (great pest deterrent), grows well in part shade, and blooms in early summer.

China Rose - Twiggy bush forming (3-8 ft. tall), plant in a full sun location, minimal pruning required, and continuously blooms throughout the summer

Damask Rose - Very old varieties (brought by the Crusaders), forms a more open bush (3-6 ft. tall), and blooms in early summer.

Gallica Rose - Oldest of all garden roses (grown in Roman and Greek times), forms a short and bushy shrub (3-5 ft. tall) and blooms in early summer.

Highlights Cont'd...

Groundcover Roses - Form dense bushy shrubs, that are hardy and disease resistant, produces sprays of small blooms.

Moss Rose - Popular in Victorian Era, called such for the mossy spine growths on the stems, varieties grow 3-6 ft tall, and blooms in early summer.

Portland Roses - Great for small gardens, varieties grow 3-4 ft. tall, and continuously blooms throughout the summer.

Rambling Roses - Blooms once in summer with numerous sprays of small blooms (bloom size is smaller than Climbing varieties).

Rugosa Roses - Form large dense shrubs, will grow in poor conditions, disease-free, sensitive to control sprays and continuously flower in the summer.
